

Theta Token - SLIVER.tv Deposit Guide

Introduction & Overview

In this guide we'll detail how you can acquire Theta Tokens (THETA) and deposit them to SLIVER.tv. The process can be confusing at first, but this step-by-step guide will help you through it and when we're done you'll know all about how to transfer crypto assets! **Step 1** will be to acquire Ethereum (ETH), which you can then use to buy THETA. If you already own ETH or know how to purchase it, you can skip to **Step 2**, acquiring THETA from a cryptocurrency exchange. Finally, in **Step 3** we'll transfer your THETA from the cryptocurrency exchange to SLIVER.tv to use.

Step 1: Acquiring ETH

First register an account at [Coinbase](#) so that you can purchase ETH with your local currency. Once you register your Coinbase account, you can purchase ETH either by wire transferring funds to Coinbase to purchase (funds will typically be available the same day or next day) or by linking your bank account and completing an ACH transfer (funds typically available after ~5 days) . Click "Buy/Sell" at the top, then select Ethereum, and enter the amount of ETH you wish to purchase.

The screenshot displays the Coinbase 'Buy' interface. At the top, the 'Buy' tab is selected, and the 'Ethereum' option is highlighted with a green border. The payment method is set to 'Bank Account'. The amount entered is 100 USD, which is converted to 0.24783651 ETH. A summary on the right shows the total cost of \$100.00, including a \$2.99 Coinbase fee.

| Item | Amount | Price |
|----------------|--------|-----------------|
| 0.24783651 ETH | | \$97.01 |
| Coinbase Fee | | \$2.99 |
| Total | | \$100.00 |

Step 2: Acquiring THETA

Now that you own ETH, you can use it to purchase THETA at a cryptocurrency exchange such as Huobi. Go to www.huobi.pro to register your account and verify your identity (verification can take 24-48 hours to be completed). Once your account is created, we'll want to find our Huobi ETH deposit address so we can send your ETH from Coinbase to Huobi. At the top hover over "Balances" and click "Deposits & Withdrawals". Next to ETH, click "Deposit" to display your ETH deposit address. Make sure it is for ETH! If you get mixed up and send ETH to a bitcoin deposit address for example, your funds may be lost.

Once you copy the ETH deposit address, go back to your Coinbase page, click "Accounts" at the top, then select your ETH wallet and click "Send". When prompted for the address to send to, we'll use the ETH deposit address we just check on Huobi.

Once you complete the transaction, typically you'll see your funds arrive at Huobi in about 5 minutes (though it can be up to 30 minutes if the Ethereum blockchain happens to be backlogged at the time). Back on Huobi, once your ETH arrives in your Balances page, click on "Exchange" in the upper left corner, then "ETH" to show markets that trade in ETH, then "THETA" to access the THETA/ETH exchange pair and purchase THETA with your ETH. The three buttons mentioned are boxed in red on the left side of the following picture:

From there, the easiest way to trade is to click "Market Order", then enter the number of ETH you want to use to buy THETA, then click the green "BUY THETA" button. This will purchase THETA in the amount of ETH you specified at the best available market price.

Step 3: Depositing THETA to SLIVER.tv

For the last step, you'll need to send your THETA from your Huobi account to SLIVER.tv. Login to your SLIVER.tv account and click the Theta Token icon in the upper right corner, then click "Deposit Theta". On the following page click the "Deposit" button, then "Start Deposit" below Step 1.

On the next page, you'll be provided with the ETH address you should send your THETA to.

DIAMONDS HISTORY THETA HISTORY REDEMPTION HISTORY

×

Step 1: Send Theta

Your deposit address:
0xce1601c3fa7ba7418a888c6

Note: This address is only good for the next 3 DAYS,
sending Theta after that period **will not credit your account!**

Make sure you make note of the TRANSACTION HASH to verify it with SLIVER.tv

Okay, I have my Transaction Hash

Make sure to note that address, then we'll go back to Huobi to withdraw THETA to SLIVER.tv. On Huobi, hover over the "Balances" button at the top and then click "Deposit & Withdraw". The next screen will show you the assets you hold, so click the "Withdraw" button next to THETA. You'll be prompted to enter the Address (the deposit address provided to you on SLIVER.tv) and the amount of THETA you wish to withdraw (you can just click the Available balance to withdraw it all). Once that's complete, hit the blue "Withdraw" button and follow the verification instructions.

Huobi will then provide a transaction hash for your withdrawal, which you will take back to SLIVER.tv and enter after clicking the button that says "Okay, I have my Transaction Hash". That way we'll know to expect your deposit and credit your SLIVER.tv account!

That's it! Your THETA should now be available soon on SLIVER.tv! More than a few steps but now that you're done can donate to your favorite streamers or buy exclusive VIP items that can only be purchased with THETA!
